

## Route To Parks Grants

California is home to the largest and most diverse state park system in the country. Yet the very Californians who give our state its unique mix of diversity and beauty can't find affordable and easy access to state parks and beaches.

The reasons are multifaceted. They are rooted in long-standing structural challenges; and, they can only be overcome through an inclusive, hand-in-hand collaboration with those who are most affected.

Parks California's Route To Parks Grants program supports organizations that are finding innovative solutions to address those barriers in parts of the state with the greatest transportation needs. The program increases park access - and enhances the park experience - providing visitors a new range of recreational, cultural, and historic learning opportunities. The building blocks of lifelong relationships to nature.

**The diversity of our state's park system should match the diversity of its visitors. Your support will:**

- Address transportation barriers for those who need it the most
- Create longstanding, scalable and replicable solutions
- Develop a collaborative network of new partners across the state
